Personal Profile

I am an outgoing and enthusiastic individual currently based in Bristol - I thoroughly enjoy working with people and being challenged. After recently graduating from University of the West of England I am seeking opportunities in digital marketing and social media; I am looking to develop my skills in both areas.

In addition, I work across the music industry via the platforms of journalism, artist liaison, marketing and events. I have a keen interest in honing these skills also. My passion lies in music, in particular supporting local venues and artists - this reflects in my experience and interests.

I have excellent interpersonal skills and have had years of experience of customer relations. I am reliable, punctual and able to adapt to situations, I pride myself in being a team player that values loyalty and integrity.
